

## Manufacture's Declaration

### Confirmation of Compliance with the Requirements of Commission Regulation (EU) 2016/631 (RfG)

**AISWEI New Energy Technology (Jiangsu) Co., Ltd** hereby confirms that the inverter types listed below table fulfill general requirements for type A power-generating modules in accordance with the Commission Regulation (EU) 2016/631 (RfG).

Brand	Solplanet	
Type reference	ASW8000-T	ASW10000-T
Nominal AC Power	8000W	10000W
Maximum AC Power	8000W	10000W

The inverters fulfill general requirements for type A power-generating modules in accordance with the Commission Regulation (EU) 2016/631 (RfG), along with the specifications in the data sheet and the CE declaration, by the following points:

- The inverters fulfill the requirements relating to frequency stability.
- The inverters have the limited frequency sensitive mode - overfrequency (LFSM-O) that was activated by default.
- The active power output can be ceased within five seconds following an instruction being received at the communication device.
- The connecting and reconnecting conditions comply with the relevant TSO.

Suzhou, 09.10.2020
