Picture Production and Bitmap Conversion for GDEW1248Z95

Take Figure 1 for example, we will briefly introduce how to make picture and convert bitmap.

1. How to Make Picture

Separate the picture to be displayed into two 1304*984 resolution pictures, one for the black part and one for the red part, and save them as BMP or JPG files (BMP is recommended).

2. Bitmap Conversion

Open zimo221.exe in the RAR package. Parameter setting is as follows:

- 2.1 Open the black picture (Figure 2);
- 2.2 "参数设置"-"其它选项": Choose "横向取模" and "只在 字母前加 0" (Figure 3);
- 2.3 "取模方式": Choose "C51 格式" (Figure 4), if the interface turns white (Figure 5), don't worry and just wait;
- **2.4** Replace the corresponding array in the program with the array in "点阵生成区" (Figure 4);
- **2.5** Open the red picture and repeat the above steps;
