COMMENT

The comment refers to the tested sample and relates only to the investigated parameters.

The analysed sample can be classified as processed food which is concentrated during processing according to article 20 of regulation (EC) 396/2005 (regulation on maximum residue levels in food and feed). Therefore the corresponding Maximum Residue Levels have to be calculated considering a concentration factor of 12.

Our comment is that analysed sample is in accordance with the requirements of regulation (EC) 396/2005 (regulation on maximum residue levels in food and feed) in its currently valid version.

We do not accept responsibility for decisions taken on the basis of our reports and comments.

EXPLANATORY NOTE

LOQ: Limit of Quantification

< LOQ: Below Limit of Quantification

N/A means Not applicable

Sum compounds results are calculated from the results of each quantified compound as set by regulation

In column "EU MRL", "/" means : "the default guideline value, 0.01 mg/kg, applies"

In column "EU MRL", "-" means : the individual compound guideline value is subjected to guideline value of summed compounds

EU MRL values are pesticides EU MRLs cited from Regulation (EC) No 396/2005

The result(s) relate(s) only to the item(s) tested and is(are) only for internal use by the client and not for publicly available as evidence.

This analytical report shall not be reproduced except in full, without written approval of the laboratory.
