

# Cr:LiSAF - Chromium Doped Colquiriite ( $\text{Cr}^{3+}:\text{LiSrAlF}_6$ )

## Introduction

CASTECH provides high quality, Cr-doped Colquiriite crystal ( $\text{Cr}:\text{LiSAF}$ ,  $\text{Cr}^{3+}:\text{LiSrAlF}_6$ ) using the Czochralski technique. It is an excellent laser material with high energy storage and high slope efficiency. It is also an ideal working material under conditions of ultra short pulse and ultra high power. Currently, Cr:LiSAF related products such as flashlight pumping and diode pumping laser have been widely used.
