HCS-4368CTE/50 Voting Unit

Features

- **Tabletop-mounting, stylish and ergonomic design**
- **Max system capacity: 4096 voting units**
- **3 voting keys**
- **Controls voting start, suspend, re-start and stop**
- **Waterproof facility**
- **Supporting "PnP" (plug and play)**

Functions

- Compliant to IEC 60914
- "Closed Loop - Daisy Chain" connection topology for a high operational system reliability: breakdown or replacement of a voting unit and connection failure of a cable will not influence other voting units
- New digital design, compliant to many international standards
- Voting system is resistive to 15 kV static, excels IEC CISPR 24
- Max system capacity: 4096 voting units
- Automatic system recovery and "PnP" (plug and play)
- 3 voting keys
- In combination with corresponding software modules, multiform voting can be implemented:
    - For/Against
    - Parliamentary: YES/NO/ABSTAIN
    - Appraisal:
        - Satisfied (three keys voting:
            satisfied/basically satisfied/unsatisfied)
            (two keys voting: satisfied/unsatisfied)
        - Qualified (three/two keys voting)
        - Competent (three/two keys voting)
- Controls voting start, suspend, re-start and stop
- Graphic 256x32 LCD with back-lighting for displaying:
    - Delegate signed-in and voting results, etc
    - Messages (messages from system administrator to all or part of participants)
    - Multilingual (simplified/traditional Chinese and English, etc) menu
- Key-press sign-in
- Automatic detection
- Waterproof facility

Interconnections

- 1.5 m cable with 6P-DIN standard plug
- 0.6 m cable with 6P-DIN standard socket

Technical Specifications

Mechanical

Mounting	Tabletop
Dimensions (h x w x d)	64 x 197 x 86 mm
Weight	0.5 kg
Frame Color	Red (PANTONE 476 C)

Ordering Information

HCS-4368DTE_R/50......Fully Digital Voting System Delegate Unit
(tabletop, 3 voting keys, 256×32 LCD, waterproof, antistatic 15000 V, red)

Features

■ **Tabletop-mounting, stylish and ergonomic design**

■ **Max system capacity: 4096 voting units**

■ **3 voting keys**

■ **Waterproof facility**

■ **Supporting "PnP" (plug and play)**

Functions

■ Compliant to IEC 60914

■ "Closed Loop - Daisy Chain" connection topology for a high operational system reliability: breakdown or replacement of a voting unit and connection failure of a cable will not influence other voting units

■ New digital design, compliant to many international standards

■ Voting system is resistive to 15 kV static, excels IEC CISPR 24

■ Max system capacity: 4096 voting units

■ Automatic system recovery and "PnP" (plug and play)

■ 3 voting keys

■ In combination with corresponding software modules, multiform voting can be implemented:
   ♦ For/Against
   ♦ Parliamentary: YES/NO/ABSTAIN
   ♦ Appraisal:
      ▪ Satisfied (three keys voting:
            satisfied/basically satisfied/unsatisfied)
            (two keys voting: satisfied/unsatisfied)
      ▪ Qualified (three/two keys voting)
      ▪ Competent (three/two keys voting)

■ Graphic 256x32 LCD with back-lighting for displaying:
   ♦ Delegate signed-in and voting results, etc
   ♦ Messages (messages from system administrator to all or part of participants)
   ♦ Multilingual (simplified/traditional Chinese and English, etc) menu

■ Key-press sign-in

■ Automatic detection

■ Waterproof facility

Interconnections

■ 1.5 m cable with 6P-DIN standard plug

■ 0.6 m cable with 6P-DIN standard socket

HCS-4368CTE/FM/50 Voting Unit

Features

- **Flush-mounting, stylish and ergonomic design**
- **Max. system capacity: 4096 voting units**
- **3 voting keys**
- **Controls voting start, suspend, re-start and stop**
- **Waterproof facility, and equipped with ferromagnetic cover to protect the unit from damage during the adjournment**
- **Supporting "PnP" (plug and play)**

Functions

- Compliant to IEC 60914
- "Closed Loop - Daisy Chain" connection topology for a high operational system reliability: breakdown or replacement of a voting unit and connection failure of a cable will not influence other voting units
- New digital design, compliant to many international standards
- Voting system is resistive to 15 kV static, excels IEC CISPR 24
- Max system capacity: 4096 voting units
