

Shenzhen Sun Abrasives

ABRASIVE FILM & ABRASIVE PAPER

Professional OEM Manufacturer & Supplier

QR Code

ABOUT US

Shenzhen Sun abrasives is a professional abrasives supplier in China. We are authorized by our abrasive paper factory for overseas marketing with quality and delivery guarantee. We promise as follows.

1. Offer the best solution according to customer's requirements.
2. All goods delivered to customers strictly meet the sample quality which is approved by both sides. We take full responsibility for any unqualified products.
3. Priority goods delivery arrangement according to the contract.
4. All products accept OEM orders if the quantity get to MOQ.
5. Offer technical support after sale.

Alox	D-wt Kraft Paper	DV28	affordable item in wood and leather market			★	★	27

EU26

ABRASIVE FILM

Advantages

- PET film as base paper guarantees high strength, anti-deformation, ultra even surface, heat-resistance, excellent flexibility and work pieces having smoother finish.
- Special-treated grains comply with EU standards. Special sand-planting technique realizes oriented grains evenly distributed. Sharp surface lead to superior cutting performance and consistent finish.
- Heat-resistant and high-strength base paper together with special bonding realizes persistent performance.
- Special anti-clog coating ensures good sanding dust removal and prevents clogging thus optimizes the product performance.
- Smoother surface than abrasive cloth. Better strength and dimension stability than abrasive paper. Waterproof and oil-resistant. Can be used wet or dry.

Application

- Automotive industry
- Metalworking industry
- 3C industry(Computer, Communication and Consumer Electronics)

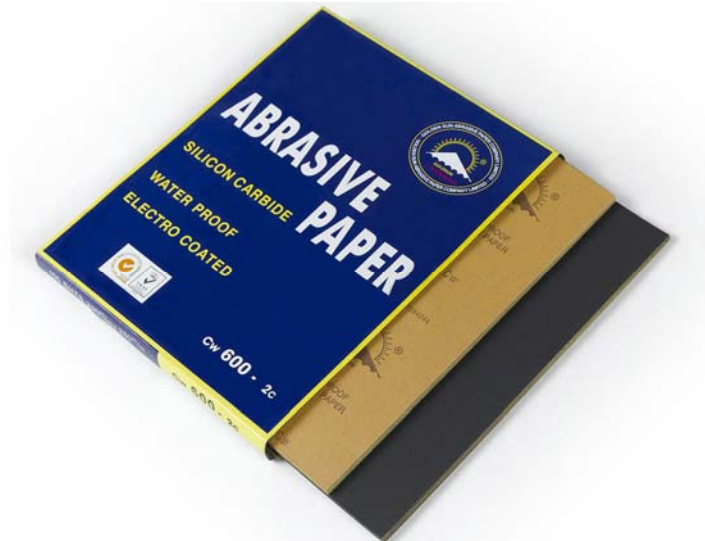

Item No.	EU26
Category	Abrasive film
Base Film	Transparent color 100μm/125μm Korean film
Abrasive Grain	Special treated Alox(hidden coating)
Sand Color	Green
Available Grits	P60-P2500
Available Form	Jumbo roll / small roll / sheet / disc

BP62

WATERPROOF SANDPAPER

Advantages

- High-quality kraft with advanced waterproof technique, oil resistant and flexible in actual use.
- Sharp and high-quality black silicon carbide grains lead to better productivity and consistent finish.
- Longer life time due to high-strength resinous bonding.

Application

- Textile industry
- Automotive industry
- Metalworking industry
- Construction decoration industry
- Stone and gemstone processing industry
- 3C industry (Computer, Communication and Consumer Electronics)

Item No.	BP62
Category	Waterproof sandpaper
Base Paper	Natural color C/D-wt kraft paper
Abrasive Grain	SiC
Sand Color	Black
Available Grits	P60-P2500
Available Form	Jumbo roll / small roll / sheet / disc

BN62

WATERPROOF SANDPAPER

Advantages

- Imported flexible latex paper specialized in high- quality waterproof abrasive paper. Excellent waterproof and oil-resistant and flexible in actual use. Superior soft and can use without soaking.
- Sharp and high-quality special-treated grains lead to better productivity and consistent finish.
- Using soft resin so grains better finishing.
- Superior long life time. Widely used in Auto industry.

Application

- Automotive industry
- Metalworking industry

Item No.	BN62
Category	Waterproof sandpaper
Base Paper	Brown color C-wt EU latex paper
Abrasive Grain	SiC
Sand Color	Black
Available Grits	P60-P2500
Available Form	Jumbo roll / small roll / sheet / disc

BN82

WATERPROOF SANDPAPER

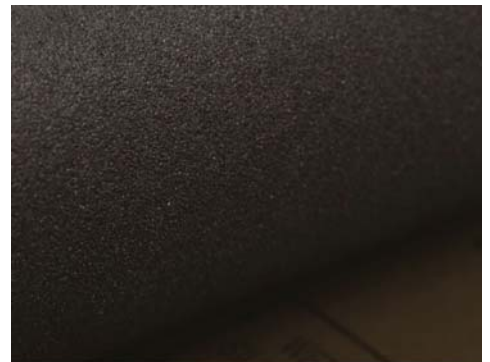

Advantages

- Imported flexible latex paper specialized in high- quality waterproof abrasive paper. Excellent waterproof and oil-resistant and flexible in actual use. Superior soft and can use without soaking.
- Sharp and high-quality special-treated grains lead to better productivity and consistent finish.
- Using hard resin so grains faster cutting rate.
- Superior long life time. Widely used in Auto industry.

Application

- Automotive industry
- Metalworking industry

Item No.	BN82
Category	Waterproof sandpaper
Base Paper	Brown color C-wt EU latex paper
Abrasive Grain	SiC
Sand Color	Black
Available Grits	P60-P2500
Available Form	Jumbo roll / small roll / sheet / disc

BM62

WATERPROOF SANDPAPER

Advantages

- Imported anti-curl latex paper specialized in high- quality waterproof abrasive paper. Excellent waterproof and oil-resistant and flexible in actual use. Superior soft and can use without soaking.
- Sharp and high-quality special-treated grains lead to better productivity and consistent finish.
- Using soft resin so grains better finishing.
- Superior long life time. Widely used in auto industry.

Application

- Automotive industry
- Metalworking industry

Item No.	BM62
Category	Waterproof sandpaper
Base Paper	Blue color C-wt anti-curl EU latex paper
Abrasive Grain	SiC
Sand Color	Black
Available Grits	P60-P2500
Available Form	Jumbo roll / small roll / sheet / disc

BM82

WATERPROOF SANDPAPER

Advantages

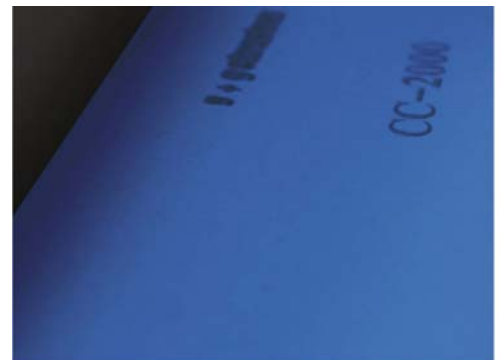

- Imported anit-curl latex paper specialized in high- quality waterproof abrasive paper. Excellent waterproof and oil-resistant and flexible in actual use. Superior soft and can use without soaking.
- Sharp and high-quality special-treated grains lead to better productivity and consistent finish.
- Using hard resin so grains faster cutting rate.
- Superior long life time. Widely used in auto industry.

Application

- Automotive industry
- Metalworking industry

Item No.	BM82
Category	Waterproof sandpaper
Base Paper	Blue color C-wt anti-curl EU latex paper
Abrasive Grain	SiC
Sand Color	Black
Available Grits	P60-P2500
Available Form	Jumbo roll / small roll / sheet / disc

BR62

WATERPROOF SANDPAPER

Advantages

- Imported high-quality kraft paper with advanced waterproof technique. Waterproof, oil-resistant and anti-curl.
- Sharp and high-quality black silicon carbide grains lead to better productivity and consistent finish.
- Longer life time due to high-strength resinous bonding.
- Universal application to many industries.

Application

- Textile/Denim industry
- Automotive industry
- Metalworking industry
- Construction decoration industry
- Stone and gemstone processing industry
- 3C industry(Computer, Communication and Consumer Electronics)

Item No.	BR62
Category	Waterproof sandpaper
Base Paper	Natural color C-wt semi-transparent EU kraft paper
Abrasive Grain	SiC
Sand Color	Black
Available Grits	P60-P2500
Available Form	Jumbo roll / small roll / sheet / disc

BR62A

WATERPROOF SANDPAPER

Advantages

- Imported high-quality kraft paper with advanced waterproof technique. Waterproof, oil-resistant and anti-curl.
- Sharp and high-quality black silicon carbide grains lead to better productivity and consistent finish.
- Longer life time than BR62.
- Universal application to many industries.

Application

- Textile/Denim industry
- Automotive industry
- Metalworking industry
- Construction decoration industry
- Stone and gemstone processing industry
- 3C industry(Computer, Communication and Consumer Electronics)

Item No.	BR62A
Category	Waterproof sandpaper
Base Paper	Natural color C-wt semi-transparent EU kraft paper
Abrasive Grain	SiC
Sand Color	Black
Available Grits	P60-P2500
Available Form	Jumbo roll / small roll / sheet / disc

BF62

WATERPROOF SANDPAPER

Advantages

- Imported anti-roll latex paper specialized in high- quality waterproof abrasive paper. Excellent waterproof and oil-resistant and flexible in actual use. Superior soft and can use without soaking.
- Sharp and high-quality special-treated grains lead to better productivity and consistent finish.
- Using soft resin so grains better finishing.
- Better bonding between the grains and backing due to resinous bonding and backing with special coating. Superior long life time.

Application

- Automotive industry
- Metalworking industry

Item No.	BF62
Category	Waterproof sandpaper
Base Paper	Dark grey color C-wt EU latex paper
Abrasive Grain	SiC
Sand Color	Black
Available Grits	P60-P2500
Available Form	Jumbo roll / small roll / sheet / disc

DN82

WATERPROOF SANDPAPER

Advantages

- Imported flexible backing specialized in high-quality waterproof abrasive paper. Excellent waterproof and oil-resistant and flexible in actual use. Superior soft and can use without soaking.
- Sharp and high-quality special-treated grains lead to better productivity.
- Better bonding between the grains and backing due to high-strength heat-resistant resinous bonding and backing with special coating. Superior long life time.

Application

- Automotive industry
- Metalworking industry
- Glassworking industry
- Shipbuilding industry
- Optical fiber communication industry

Item No.	DN82
Category	Waterproof sandpaper
Base Paper	Brown color C-wt EU latex paper
Abrasive Grain	Alox
Sand Color	Red
Available Grits	P60-P2500
Available Form	Jumbo roll / small roll / sheet / disc

BM85

DRY SANDING PAPER

Advantages

- Imported special-made backing. Superior tough but soft and flexible. Especially suitable for power and air tools sanding and polishing.
- Sharp and high-quality grains lead to better productivity and consistent finish.
- Better bonding between the grains and backing due to high-strength resinous bonding and backing with special coating. Superior long life time.

Application

- Wood industry

Item No.	BM85
Category	Dry sanding paper
Base Paper	Blue color C-wt EU latex paper
Abrasive Grain	SiC
Sand Color	White
Available Grits	P60-P800
Available Form	Jumbo roll / small roll / sheet / disc

BA85

DRY SANDING PAPER

Advantages

- Imported A-wt backing with superior flexibility. Especially suitable for curved surface and complex shape pieces hand sanding.
- Sharp and high-quality grains lead to better productivity and consistent finish.
- Better bonding between the grains and backing due to high-strength resinous bonding and backing with special coating. Superior long life time.
- Fully open coating has very good anti-clog performance.

Application

- Wood industry

Item No.	BA85
Category	Dry sanding paper
Base Paper	White color A-wt EU latex paper
Abrasive Grain	SiC
Sand Color	White
Available Grits	P60-P800
Available Form	Jumbo roll / small roll / sheet / disc

DH85

DRY SANDING PAPER

Advantages

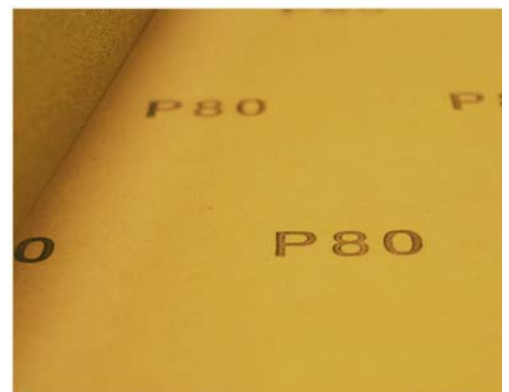

- Soft and elastic base paper guarantees good flexibility and work pieces having smoother finishes.
- Special-treated grains, which comply with EU standards, are made by high quality Alox with excellent grinding and persistence. Better productivity and consistent finish.
- Heat-resistant resin and high strength base paper guarantee persistent performance.
- Special anti-clog coating prevents clogging with sanding dust and optimizes the product performance.
- Can be used wet or dry.

Application

- Automotive industry
- Wood industry

Item No.	DH85
Category	Dry sanding paper
Base Paper	Yellow color C-wt EU latex paper
Abrasive Grain	Special treated Alox(hidden coating)
Sand Color	Yellow
Available Grits	P60-P800
Available Form	Jumbo roll / small roll / sheet / disc

DI26

DRY SANDING PAPER

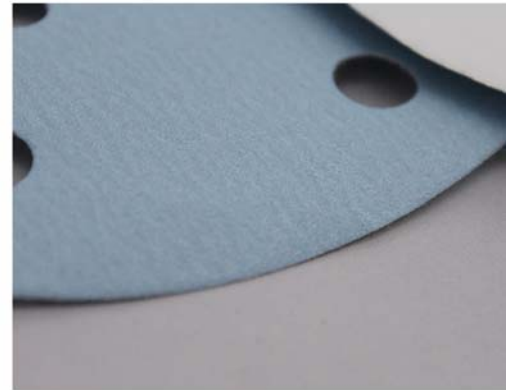

Advantages

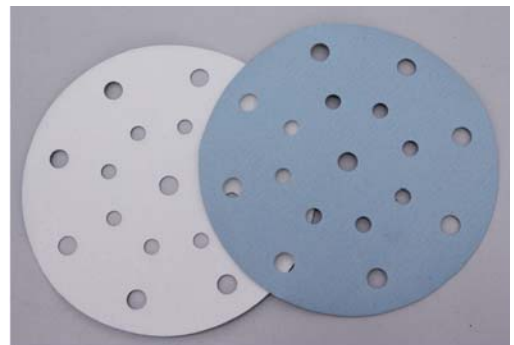

- High strength, ultra even surface, heat-resistance, excellent flexibility and work pieces having smoother finish.
- Special-treated grains comply with EU standards. Special sand-planting technique realizes oriented grains evenly distributed. Sharp surface lead to superior cutting performance and consistent finish.
- Heat-resistant and high-strength base paper together with special bonding realizes persistent performance.
- Special anti-clog coating ensures good sanding dust removal and prevents clogging thus optimizes the product performance.

Application

- Automotive industry

Item No.	DI26
Category	Dry sanding paper
Base Paper	White color C-wt EU latex paper
Abrasive Grain	Special treated Alox
Sand Color	Blue
Available Grits	P60-P600
Available Form	Jumbo roll / small roll / sheet / disc

EH66

DRY SANDING PAPER

Advantages

- Soft and elastic base paper guarantees good flexibility and work pieces having smoother finishes.
- Special-treated grains, which comply with EU standards, are made by high quality Alox with excellent grinding and persistence. Better productivity and consistent finish.
- Heat-resistant resin and high strength base paper guarantee persistent performance.
- Special anti-clog coating prevents clogging with sanding dust and optimizes the product performance.

Application

- Automotive industry
- Furniture industry

Item No.	EH66
Category	Dry sanding paper
Base Paper	White color C-wt EU latex paper
Abrasive Grain	Special treated Alox
Sand Color	White
Available Grits	P60-P600
Available Form	Jumbo roll / small roll / sheet / disc

EI86

DRY SANDING PAPER

Advantages

- Imported special-made C-wt and D-wt latex paper backing with superior flexibility and even surface.
- Specially melted and treated Alox grains lead to high productivity and consistent finish.
- Better bonding between the grains and backing due to high-strength resinous bonding and backing with special coating. Superior long life time.
- Special anti-clog coating guarantees long life time.

Application

- Furniture industry

Item No.	EI86
Category	Dry sanding paper
Base Paper	White color C/D-wt EU latex paper
Abrasive Grain	Alox
Sand Color	Lemon yellow
Available Grits	P60-P800
Available Form	Jumbo roll / small roll / sheet / disc

EN85

DRY SANDING PAPER

Advantages

- Imported latex paper with special technique. Excellent flexibility and resistance to folding and tearing.
- Special-treated grains comply with EU standards. Special sand-planting technique realizes oriented grains evenly distributed. Sharp surface lead to superior cutting performance and consistent finish.
- Special anti-clog coating ensures good sanding dust removal and prevents clogging thus optimizes the product performance.

Application

- Furniture industry
- 3C industry(Computer, Communication and Consumer Electronics)

Item No.	EN85
Category	Dry sanding paper
Base Paper	Brown color C-wt US latex paper
Abrasive Grain	Special treated Alox
Sand Color	Matt white
Available Grits	P60-P800
Available Form	Jumbo roll / small roll / sheet / disc

EN852

DRY SANDING PAPER

Advantages

- Imported latex paper with special technique. Excellent flexibility and resistance to folding and tearing.
- Special-treated grains comply with EU standards. Special sand-planting technique realizes oriented grains evenly distributed. Sharp surface lead to superior cutting performance and consistent finish.
- Special anti-clog coating ensures good sanding dust removal and prevents clogging thus optimizes the product performance.

Application

- Furniture industry
- 3C industry(Computer, Communication and Consumer Electronics)
- Automotive industry

Item No.	EN852
Category	Dry sanding paper
Base Paper	Brown color C-wt EU latex paper
Abrasive Grain	Special treated Alox
Sand Color	Matt white
Available Grits	P60-P800
Available Form	Jumbo roll / small roll / sheet / disc

EJ85

DRY SANDING PAPER

Advantages

- Imported latex paper with special technique. Excellent flexibility and resistance to folding and tearing.
- Special-treated grains comply with EU standards. Special sand-planting technique realizes oriented grains evenly distributed. Sharp surface lead to superior cutting performance and consistent finish.
- Special anti-clog coating ensures good sanding dust removal and prevents clogging thus optimizes the product performance.
- Can be used wet or dry.

Application

- Furniture industry
- 3C industry(Computer, Communication and Consumer Electronics)

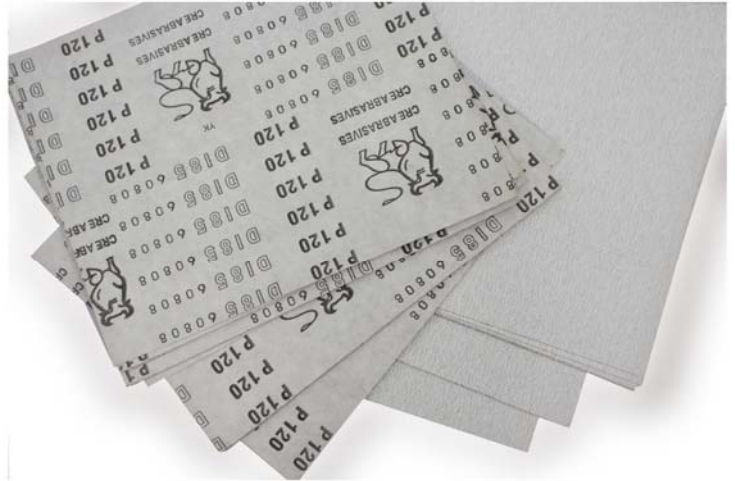

Item No.	EJ85
Category	Dry sanding paper
Base Paper	Red color C-wt US latex paper
Abrasive Grain	Special treated Alox
Sand Color	Matt white
Available Grits	P60-P800
Available Form	Jumbo roll / small roll / sheet / disc

DI85

DRY SANDING PAPER

Advantages

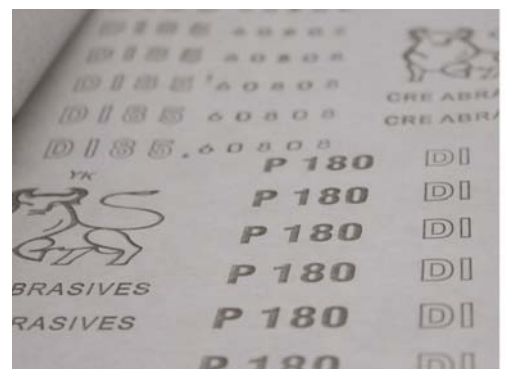

- Special-made C-wt backing. Flexible and tough even in dry and cold season.
- Special-treated grains which comply with EU standards lead to superior productivity (increase 30% - 40%) and consistent finish.
- Better bonding between the grains and backing due to high-strength resinous bonding and backing with special coating. Superior long life time.

Application

- Furniture industry
- Construction decoration industry
- 3C industry(Computer, Communication and Consumer Electronics)

Item No.	DI85
Category	Dry sanding paper
Base Paper	White color C-wt EU latex paper
Abrasive Grain	Special treated Alox
Sand Color	White
Available Grits	P60-P800
Available Form	Jumbo roll / small roll / sheet / disc

EK85

DRY SANDING PAPER

Advantages

- Special-made C-wt backing. Flexible and tough even in dry and cold season.
- Special-treated grains which comply with EU standards lead to superior productivity (increase 30% - 40%) and consistent finish.
- Better bonding between the grains and backing due to high-strength resinous bonding and backing with special coating. Superior long life time.
- Excellent performance in sanding flat surface.

Application

- Furniture industry
- Construction decoration industry
- 3C industry(Computer, Communication and Consumer Electronics)

Item No.	EK85
Category	Dry sanding paper
Base Paper	Blue color C-wt EU latex paper
Abrasive Grain	Special treated Alox
Sand Color	White
Available Grits	P60-P800
Available Form	Jumbo roll / small roll / sheet / disc

EK851

DRY SANDING PAPER

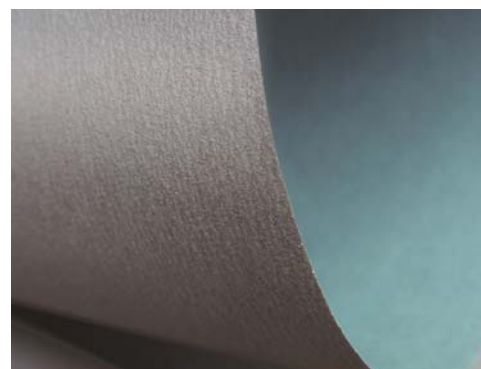

Advantages

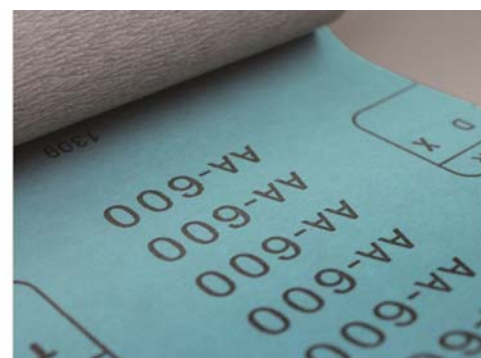

- Special-made C-wt backing. Flexible and tough even in dry and cold season.
- Special-treated grains which comply with EU standards lead to superior productivity (increase 30% - 40%) and consistent finish.
- Better bonding between the grains and backing due to high-strength resinous bonding and backing with special coating. Superior long life time.
- Better cut rate and flexibility than EK85.

Application

- Furniture industry
- Construction decoration industry
- 3C industry(Computer, Communication and Consumer Electronics)

Item No.	EK851
Category	Dry sanding paper
Base Paper	Blue color C-wt EU latex paper
Abrasive Grain	Special treated Alox
Sand Color	White
Available Grits	P60-P800
Available Form	Jumbo roll / small roll / sheet / disc

EK852

DRY SANDING PAPER

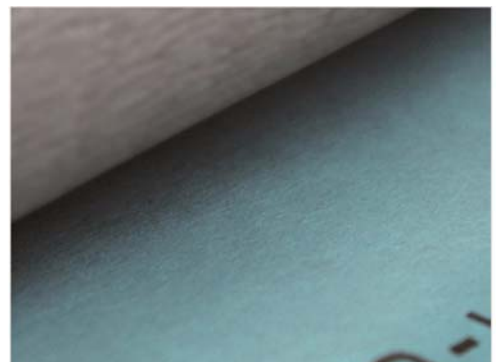

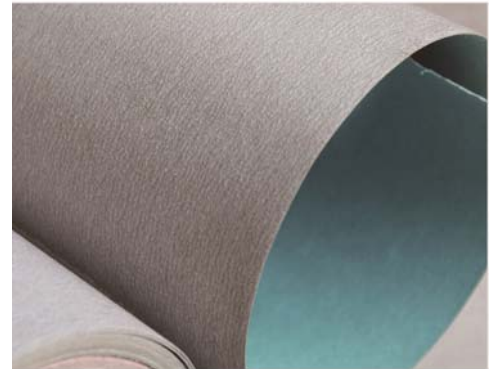

Advantages

- Imported latex paper with special technique. Excellent flexibility and resistance to folding and tearing. Outstanding performance on curved and irregular surface sanding and polishing. For example, redwood carving.
- Special-treated grains which comply with EU standards guarantees sharp and fast cutting, evenly grinding and consistent finish.
- Better bonding between the grains and backing due to high-strength resinous bonding and backing with special coating. Superior long life time.
- Special anti-clog coating ensures good sanding dust removal and prevents clogging thus optimizes the product performance.

Application

- Furniture industry
- Construction decoration industry
- 3C industry(Computer, Communication and Consumer Electronics)

Item No.	EK852
Category	Dry sanding paper
Base Paper	Blue color C-wt EU latex paper
Abrasive Grain	Special treated Alox
Sand Color	White
Available Grits	P60-P800
Available Form	Jumbo roll / small roll / sheet / disc

EW91

DRY SANDING PAPER

Advantages

- Special-made E-wt backing with high toughness. Not easy to be deformed. Especially suitable for making wide abrasive belts.
- Special-treated grains which comply with EU standards improve productivity 30% - 40%.
- Better bonding between the grains and backing due to high-strength resinous bonding. Superior longer life time.

Application

- Leatherworking industry
- Bambooworking industry
- Furniture industry
- Shipbuilding industry
- Stone and gemstone processing industry

Item No.	EW91
Category	Dry sanding paper
Base Paper	Natural color E/F-wt EU kraft paper
Abrasive Grain	Special treated Alox
Sand Color	Red
Available Grits	P40-P1000
Available Form	Jumbo roll / small roll / sheet / disc / belt

DV28

DRY SANDING PAPER

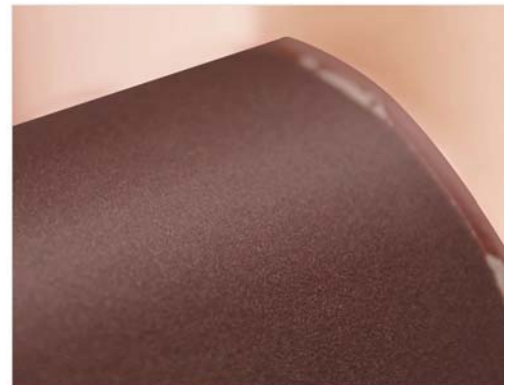

Advantages

- Economical D-wt backing with good toughness. Especially suitable for hand sanding and making abrasive disc.
- Sharp grains leads to high productivity.
- Long life time.

Application

- Furniture industry
- Metal de-rust
- Wall sanding
- Leather industry

Item No.	DV28
Category	Dry sanding paper
Base Paper	Natural color D-wt Chinese kraft paper
Abrasive Grain	Alox
Sand Color	Red
Available Grits	P60-P800
Available Form	Jumbo roll / small roll / sheet / disc

Factory

Golden Sun is one of the largest abrasive paper and film manufacturer group in China. It owns four factories with 6 production lines, one is from Italy in 2005 and one is from Germany in 2013. Most of its raw materials are from Europe, USA, Korea and Japan.

Now Golden Sun can produce about 60 kinds of abrasive paper for different usages. It has taken 40% of Chinese market. And take the place of those imported abrasive paper especially in automotive line and 3C line etc.

Our abrasive paper are being sold to about 20 countries in South East of Asia, Middle East, Europe, Africa, and American. And we are supplying to the most famous companies in the world. All products accept OEM orders.

The annual output of the group is about 50,000,000 square meters.

There are technical staff 35 persons, and about 300 workers.
