LUMIGENEX

GLOBAL LIFE SCIENCE
TECHNOLOGY LEADER

We are committed to the research
development and manufacturing
of consumables in life science.

COMPANY INTRODUCTION

Lumigenex (Suzhou) Co., Ltd, is a fast-growing biotechnological company dedicated to high-end labware consumables, focusing on molecular diagnosis general-purpose consumables, cell culture etc.

We firmly believe that through unremitting efforts, Lumigenex will become a laboratory supporting supplier in the life science field, providing global partners with "one-stop" overall solutions.

Lumigenex devote to the development of proprietary technologies that meet the ever-increasing demands on clinical diagnostic products as well ,Since 2010. Based on our patented Time-Resolved Fluorescence Immunoassay (TRFIA) POCT platform, which is exclusively authorized by Global 500 Kimberly-Clark, developing cost-effective rapid diagnostic products in cardiology, women's health, infectious disease, oncology and metabolic diseases. Meanwhile, Lumigenex is a strategic partner of domestic chest pain center.

Lumigenex (Suzhou) Co., Ltd.

WE ARE COMMITTED TO THE RESEARCH
DEVELOPMENT AND MANUFACTURING
OF CONSUMABLES IN LIFE SCIENCE.

UNIVEISAL PIPETTE TIPS

Features

1. 100% virgin PP, High clarity
2. High precision mold, low retention
3. Universal fit with most of pipettors
4. Cleanroom production, Non-pyrogenic, DNase/RNase free

AUTOMATIC PIPETTE TIPS

Design of calibration ring for glass translucent cavity
 Unique long mouth design
 Thin wall design, good sealing performance. Raw material: pure PP
 No reaction to strong solution, no corrosion
 High temperature resistance: - 80°C - 120°C. It can be sterile at high temperature without deformation, ensuring verticality and flexibility
 Unique super fine diamond grinding technology
 The filter pipette tips can effectively avoid the pollution of aerosol and particles
 Each product has bag and box specifications, convenient for customers to choose, low retention type to choose from

CENTRIFUGE TUBE

15mL/50mL Centrifuge Tube

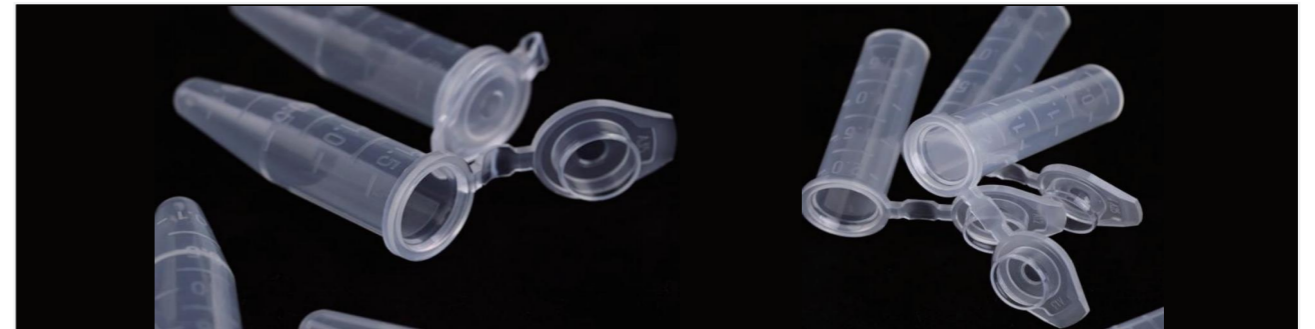

Conical Sterile Polypropylene Centrifuge Tubes are premium, high-quality conical tubes that are environmentally friendly, allow for increased traceability with the largest writing area on the market. Centrifuge tubes are made from high-purity resins and molded using our state-of-the-art processes. Centrifuge tubes is a safer alternative to glass without sacrificing accuracy. Centrifuge tubes feature black printed graduations and a large white marking spot. Available with your choice of cap styles: the advanced cap or the original plug seal cap. Sterile, RNase-/DNase-free, Nonpyrogenic.

Item number	Volume	Product type	Packing
10536847	15ml	Bagged, Sterile	25pcs/bag, 500pcs/case
10536848	50ml	Bagged, Sterile	25pcs/bag, 500pcs/case

1.5mL/2mL Microcentrifuge Tube

PP material
Steriel, Non-pyrogenic, DNase/RNase free
Temperature range -80°C-120°C

Item number	Volume	Product type	Packing
10536900	1.5ml	Microcentrifuge Tube	500pcs/box, 10boxes/case

DISPOSABLE SALIVA COLLECTION KIT

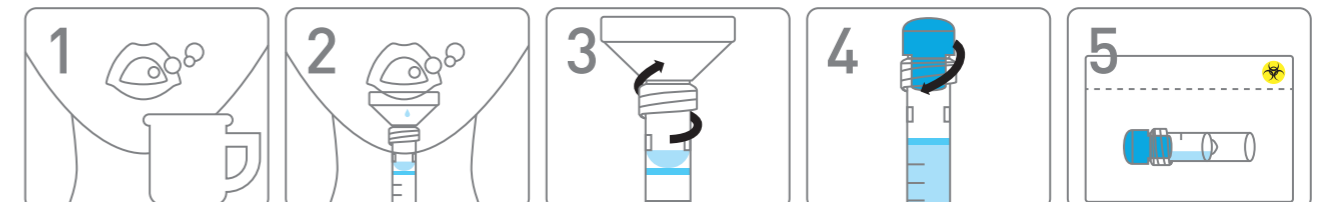

High viral load
GenoLocker® patent
Avoid cross infection
Safe convenient

Item number	Product type	Packing
10536803A	Disposable Saliva Collection kit, 2ml	10kits/box, 500kits/case
10536804B	Disposable Saliva Collection kit, 2ml	10kits/box, 500kits/case

PRODUCT APPLICATION

It is suitable for collecting and storing saliva samples at room temperature, and widely used in virus detection, gene detection, cytology sample processing, virological cell culture, enzyme-linked immunosorbent assay (ELISA), detection based on molecular diagnosis, microbes extraction from saliva, etc

1 Rinse your mouth with clean water 30 min prior to the Saliva Samples collection. Do Not eat drink, smoke or chew gum after that.

2 Spit into funnel until the amount of liquid saliva (not bubbles) reaches the fill line.

3 Hold the tube upright. Unscrew the funnel from the tube gently. The saliva in the lid will be released into the tube to mix with the liquid.

4 Use the small blue cap to close the tube tightly. Shake the capped tube for 5 seconds.

5 Put the tube into the biohazard bag and seal. Discard or recycle the funnel.
