

# Clubmax 24 FB4 IP65

## PRODUCT SPECIFICATION SHEET

---

To further improve the legendary Clubmax FB4 laser projectors' high-power range, we redesigned the housing and made it heavy-duty!

They are far more robust and **100% waterproof**, certified to **IP65** standards. They allow the productions to use them in rainy and wet environments without worry and hesitation, letting them focus on their job.

Fitted with KVANT Lasers' latest technology and smart features, they are undoubtedly the best projectors for laser professionals on the market.

**Powerful. Robust. Versatile.**

**This model is factory fitted with Motorised Dichroic Filters for quick and easy beam alignment.**

**It is also available with the Saturn5 48kpps scanners.**
