Z7S USB 3.2 Gen 2 Portable SSD

Universal features

The Netac Z7S not only supports laptops, desktop computers, mobile devices, but also supports expansion of game consoles, where you can store your games. In addition, it also supports Win To Go (Netac does not sell the system and software, you need to install it by yourself), which can meet the dual system requirements of MacBook users without occupying computer hard disk.

High performance

The Netac Z7S USB 3.2 Gen2 Type-C Portable SSD uses a USB 3.2 Gen 2 interface and transmission speeds up to 550MB/s per second for respectively, allowing you move files faster and edit right from the drive. You can store your content and memories on a fast drive, which have up to 2TB of space for a full library of content in a pocket-sized design. In order to provide customers with better after-sales service, Netac stands behind Z7S with a 3-year limited warranty.

Stylish design with indicator light

The Netac Z7S comes with both a USB Type-C to A cable and a USB-A to C adapter right in the box, so whether you are working on computer or mobile device, and with USB Type-C or Type-A connectors, Z7S works the way you work.

Easy-to-grip and pocket-sized

In order to offers compact, handy storage for users, The Netac Z7S puts emphasis on both design and portability with its aluminum and plastic combined housing, and the pocket-sized feature also gives it a very light weight.
