

MECHANICAL CASING RUNNING TOOL (EXTERNAL GRIP)

Casing running system is a new technology of running in casing, in casing operations, the most important thing is to run the casing into the bottom of the well safely. Our company's EMCRT external grip mechanical casing running tool can complete the work of makeup, lift and lower, rotation, circulation, etc. it maximum ensures that the casing can be run into the bottom of the well, which greatly improves the success rate, safety and efficiency of running in casing operation.

Technical Specification

Model	ID	Casing Size	Seal Pressure	Max. Tensile Load	Max. Working Torque	OAL	Connection
	mm (inch)	inch	MPa (PSI)	KN (lbf)	KN·m (lbf·ft)	mm (ft)	
EMCRT140	25.4(1)	4-1/2 ~ 5-1/2	35 (5,000)	3500 (780,000)	26 (19,200)	2080 (6.8)	6-5/8 REG
