

## CA REMOVER GRADE CR2

### Description

Loxeal CA Remover CR2 is a solvent-free non-flammable blend to be used to remove cured cyanoacrylate adhesive from surfaces, clothing or to debond parts assembled with cyanoacrylate adhesives.

Long lasting removing action due to effective dissolving over time.

Designed to improve operating conditions of operators, with particular care for their health and safety, CA Remover CR2 doesn't report on label any risk phrase or symbol because it is not classified as dangerous, according to actual directive on dangerous products.

### Physical properties

Composition :	mixture of organic esters
Colour :	clear
Viscosity at+25°C (mPa s) :	< 20
Specific weight (25°C - g/ml) :	1,05
Flash point :	> + 100°C
Shelf life :	1 year in original unopened packaging

### Use and application

CA remover CR2, applied to cured cyanoacrylate adhesive, provides dissolving within several minutes or several hours depending on the amount of adhesive.

- thin layers of adhesive can be wiped off with a cloth soaked in CA Remover.

- thick beads or drops will take between 30 to 60 minutes to dissolve the adhesive. A re-applying of product could be necessary.

- bonded parts may require several hours of soaking.

### Handling precautions

This product can affect certain coatings, fabrics and plastics.

It is recommended to test all surfaces for compatibility before use.

For industrial use only.

### Storage

We recommend to store product in a cool and dry place at temperature between +5°C and +25°C. To avoid contaminations do not refill containers with used product. For further information on applications, storage and handling contact Loxeal Technical Service.

### Safety and handling

Consult the Safety Data Sheet before use.
